RAPID COVID-19 TRIAGE SCALE-UPS AND DEPLOYMENT PROGRAMS

As the leading provider of technology products and customized solutions for healthcare organizations of all sizes, CDW has worked closely with several of our medical cart partners to support rapid COVID-19 triage scale-ups and deployment programs. Thanks to our partners, CDW is able to deliver a range of bundled healthcare solutions while remaining competitive.

This document illustrates our partners' offerings and includes partner-specific collateral. The accompanying Excel document represents three sets of information: medical cart bundles with assigned EDCs, quick ship bundle solutions, and medical cart-only solutions with near-term availability.

CDW is committed to helping our healthcare customers alleviate technology hardships during these unprecedented environmental conditions. We hope the solutions presented allow our customers to thrive in times of rapid change.
