

Premier Contracted Offerings

Below is a listing of group purchasing categories available through Premier. Categories are shown as they are sourced by Premier. For additional information related to these categories, see [Premier's Portfolio Books](#) in the Supply Chain News community, which provides a view of supplier offerings in a particular area of focus. Executive summaries for each contract category include awarded suppliers, category descriptions of included products and services, supplier contacts, operational details and links to launch resources.

Last updated March 13, 2024

Imaging and Radiation Oncology	
Bone Densitometry Expires December 31, 2024 This category includes dual energy-absorptiometers (DXA or DEXA), ultrasonic bone densitometers and service agreements. Bone density tests are used to determine the risk of bone breaks, identify decreases in bone density before a break or fracture, and confirm and monitor treatment of osteoporosis. Bone densitometers are also used to measure body composition and determine body fat distribution. Awarded suppliers: GE, Hologic	Cardiovascular Imaging Expires December 31, 2024 This category includes angiographic and special-procedure R/F systems (designed for diagnostic vascular imaging and vascular interventional procedures), cardiac catheterization systems (used to visually evaluate the anatomy and pathology of the heart and coronary vessels), systems used in electrophysiology labs and hybrid operating rooms and service agreements. Awarded suppliers: Canon, GE, Philips, Siemens
Computed Tomography Expires December 31, 2024 This category includes capital equipment for computed tomography including scanners (gantry, computers, interfaces), software including CAD, and service agreements. Awarded suppliers: Canon, GE, Philips, Samsung/NeuroLogica, Siemens	Contrast Media Barium Expires December 31, 2026 This category includes barium sulfate products (suspensions, powder, tablets, paste, etc.) used to enhance imaging in computed tomography (CT), general radiography for upper and lower gastrointestinal (GI) tract, accessories (tips and rings, enteroclysis kits, etc.). Awarded suppliers: Bracco, Genus
Contrast Media Injectors and Disposables Expires December 31, 2026 This category includes automatic power injectors used to administer contrast media during imaging studies, such as angiographic (including cardiac catheterization), computerized tomography, magnetic resonance imaging and positron emission tomography procedures. Original equipment manufacturer (OEM) service agreements, associated injector disposable products (syringes, tubing, etc.), contrast management and dose optimization software and interfaces are also included. Awarded suppliers: ACIST, Bayer, Bracco, CHS, GE, Genus, Guerbet	Contrast Media MR Expires December 31, 2026 This category includes contrast agents used to improve the visibility of internal body structures in magnetic resonance imaging (MRI). The most commonly used compounds for contrast enhancement are gadolinium-based. Awarded suppliers: Bayer, Bracco, Fresenius Kabi, GE, Guerbet
Contrast Media Ultrasound Expires December 31, 2026 This category includes contrast media agents used to enhance ultrasound imaging. Awarded suppliers: Bracco, GE, Lantheus	Contrast Media X-Ray Expires December 31, 2026 This category includes iodinated contrast media agents that are classified by chemical structure as ionic or nonionic and are used to enhance body structures for general radiography, special procedures, interventional procedures, computerized tomography (CT), cardiovascular procedures, mammography, etc. Awarded suppliers: Bayer, Bracco, Fresenius Kabi, GE Healthcare, Guerbet, Slate Run

Premier Contracted Offerings

Full Line Radiation Oncology **Expires August 31, 2024**

This category includes the software, hardware, equipment and services used to perform radiation therapy treatments. It includes complete solutions from suppliers that provide, at a minimum external beam radiation therapy (EBRT) systems, (i.e. linear accelerators) and associated hardware and services, including post-warranty service agreements ordered at the equipment point-of-sale. Supplemental products and services may also be included in the category, including but not limited to patient positioning, immobilization devices and motion management solutions, oncology informatics solutions and consulting services.

Awarded suppliers: Elekta

Imaging Tables **Expires September 30, 2025**

This category includes patient tables and accessories used primarily for radiology-based imaging studies, including radiography, fluoroscopy, interventional, catheterization lab and sonographic procedures.

Awarded suppliers: Medical Positioning (MPI), Oakworks

Mammography Products and Services **Expires December 31, 2024**

This category includes analog and digital mammographic radiographic units, attached stereotactic biopsy systems, stand-alone biopsy systems, specimen radiography units, biopsy devices (guns), consumables and service agreements.

Awarded suppliers: GE, Hologic, Philips, Siemens

Molecular Imaging **Expires December 31, 2024**

This category includes capital equipment used for molecular imaging including SPECT (gamma cameras), SPECT/CT, PET and PET/CT service agreements.

Awarded suppliers: Canon, GE, Philips, Siemens

PET Isotopes **Expires June 30, 2026**

This category includes high-energy positron emission tomography (PET) isotopes, information management systems used to track and analyze dose orders (hardware, software, licenses, etc.), educational resources, consumables and generators (e.g., Rubidium).

Awarded suppliers: Cardinal Health, Jubilant, PETNET, SOFIE

General Radiography **Expires December 31, 2024**

This category includes digital and analog radiography and radiography/fluoroscopy systems, portable radiography units, urological (cysto) systems, digital detectors/digital upgrades, consumables and service agreements.

Awarded suppliers: Agfa, Canon, Carestream, FujiFilm, GE, KA Imaging, Konica Minolta, Philips, Samsung, Siemens, UMG/Del Medical

Magnetic Resonance Imaging **Expires December 31, 2024**

This category includes magnetic resonance imaging (MRI) equipment and service agreements.

Awarded suppliers: Canon, Esaote, GE, Hitachi, Philips, Siemens

Mobile C-Arms **Expires December 31, 2024**

This category includes equipment and services for mobile fluoroscopic units, commonly named mobile c-arms due to their c-shaped articulating arm. It also includes the "O-ring" configurations, consumables/disposables and service agreements.

Awarded suppliers: Body Vision, GE, Hologic, OrthoScan, Philips, Siemens

MRI Ancillary Equipment and Coils **Expires June 30, 2028**

This category includes ancillary equipment specifically designed for use in magnetic resonance imaging (MRI) procedures, such as patient monitoring equipment, infusion pumps, ferrous detection devices, patient entertainment/communication systems, radio frequency (RF) surface coils, related software, positioning devices and patient transfer devices.

Awarded suppliers: IPR Medical, Kopp, Magnacoustics, Metrasens, Nonin, Philips

Physics Consulting Services **Expires August 31, 2025**

This category includes physics support services, including accreditation support, regulatory consulting, physician/clinical staff training and imaging and therapy physics support (surveys, educational services, radiation safety committee participation and professional consultation).

Awarded suppliers: Atom Physics, Landauer

Premier Contracted Offerings

Radiation Monitoring**Expires August 31, 2025**

This category includes devices (personnel dosimeters) used to capture the equivalent doses for individuals exposed to ionizing radiation, monitoring devices used for area/environmental surveys, readers, accessories and dosimetry reading and service support agreements.

Awarded suppliers: Landauer

Radiation Treatment Planning Systems**Expires February 28, 2025**

This category includes planning software modules, radiation treatment planning computer workstations and servers, licenses, interfaces, printers and service agreements.

Awarded suppliers: Philips

Radiopharmaceutical Products - Manufacturers**Expires June 30, 2026**

This category includes manufacturers of radioisotopes and radiopharmaceuticals including but not limited to isotope generators (technetium, gallium), cold kits, calibration materials, ancillary medications used in molecular imaging procedures and therapeutic radiopharmaceuticals.

Awarded suppliers: Bracco, Curium, Lantheus

Specialty Distribution - Radiology/Radiation Oncology**Expires October 31, 2027**

This category includes distributors that provide products and services for radiology and radiation oncology providers for many classes of trade including but not limited to acute, non-acute, surgery centers, imaging centers, long term care and non-healthcare. Products include lead aprons and other radiation protection products, minor equipment, imaging and radiation oncology supplies, consumables, film, etc.

Awarded suppliers: MXR Imaging

Tumor Localization Equipment and Related Accessories**Expires December 31, 2024**

This category includes electronic devices used to locate cancerous tissue for surgical excision or biopsy using markers and/or radioactive materials typically placed under imaging guidance.

Awarded suppliers: Hologic, Merit

Radiation Oncology Patient Positioning and Immobilization Devices**Expires June 30, 2027**

This category includes internal/external fixation devices and fiducial markers for imaging and radiation oncology procedures.

Awarded suppliers: Bionix, Boston Scientific, Carbon Medical

Radiopharmaceutical Products - Distributors**Expires June 30, 2026**

This category includes nuclear pharmacy services for preparation and delivery of radiopharmaceutical unit doses for single-photon emission computed tomography (SPECT) and SPECT/CT procedures. Services also include but are not limited to preparation and/or distribution of therapeutic doses, ancillary medications and supplies order management and consulting.

Awarded suppliers: Cardinal Health, Jubilant, RLS

Refurbished Diagnostic Imaging Capital Equipment**Expires June 30, 2027**

This category includes diagnostic imaging capital equipment that has been refurbished by companies that are not the original equipment manufacturer (OEM).

Awarded suppliers: Avante, Block Imaging, MXR

Specialty High Level Ultrasound Probe Disinfectant Equipment**Expires February 28, 2026**

This category includes systems for high-level disinfection of ultrasound probes, proprietary consumables, accessories, service and training.

Awarded suppliers: CIVCO

Ultrasound**Expires December 31, 2024**

This category includes ultrasound equipment, transducer disinfection systems and service agreements.

Awarded suppliers: Canon, Clarius, GE, Mindray, Philips, Samsung/NeuroLogica, Siemens, SonoSite
