

IT Healthcare Staff Augmentation Services

Healthcare organizations (HCOs) are investing in AI, automation, virtualization, and other emerging technologies, intending to drive measurable outcomes and delivering superlative patient care. The challenge: demand for modern digital skills outstrips supply by a wide margin. As a result, HCOs are faced with an acute shortage of qualified IT talent, critical to ensuring reliable and secure IT infrastructure – the backbone of any successful modern HCO. Staff augmentation – the practice of quickly filling the skills gap by hiring qualified resources for a variety of engagement needs (one-time, short-term, or long-term) – is therefore emerging as the go-to solution for organizations across the globe and can help HCOs effectively address the challenge. It eases the burden as well as reduces the costs of recruiting, onboarding, and managing diverse IT resources.

Whether your HCO is looking for highly skilled resources on-site, off-site, or remotely, Zones can help support your objectives

Zones Healthcare IT Staff Augmentation Services: Streamlining your workforce needs

Recruitment: Zones delivers end-to-end staffing solutions encompassing everything from candidate sourcing to pre-screening, ensuring we recommend only the most qualified individuals for your staffing requirements. Once approved, we manage all personnel-related tasks, from mandatory legal withholdings and employer contributions to benefits administration and workers' compensation insurance. Moreover, after fulfilling the specified contract term, these hires can transition seamlessly into full-time, direct employee roles.

Administration & Payroll: Zones' staffing services empower your hiring managers to leverage the expertise of retirees and capitalize on internal referrals for temporary roles. Once candidates are directed to Zones Staffing, we assume full responsibility for their employment and payroll management. We provide overall cost optimizations by streamlining costs associated with candidate sourcing, prescreening, reference checks, and employment verification.

Direct Hire: Zones provides a comprehensive direct-recruitment staffing approach, including a "Temp-to-Perm" option to assist companies in securing the most suitable employees. Our teams work closely with HR and hiring managers to source, screen, and verify references for potential candidates. We oversee the entire hiring journey from initial recruitment to a seamless transition and offer a replacement guarantee for clients. Furthermore, we also support domestic businesses in meeting their global staffing needs through our dedicated placement services.

WHY ZONES:

- **Predictable Budgeting and Controlled Cost:** Zones offers consistent invoicing and predictable costs, optimizing overall hiring costs for organizations.
- **Technology Expertise:** Zones leverages our credibility and track-record in the Tech space along with a deep understanding of what it takes to be a technology leader to attract key talent for your organization
