

Working together for your patients

with beyond-the-lab insights and tools

As a preferred CNECT vendor, Quest Diagnostics offers solutions that can help you optimize financial resources so that you can focus your attention on what matters most—delivering the highest-quality care.

We're committed to improving the health of patients who experience significant barriers to receiving the care they need. Our goal is to provide timely access to critical insights so you can make decisions that positively impact lives.

The financial health of your organization is important to us, too. We can help optimize operations to minimize costs and maximize your resources, so you can focus on high-quality, seamless care delivery.

IMPROVED EXPERIENCES

Local service and online tools help you provide a better, more accessible healthcare experience for your patients

BETTER OUTCOMES

Clinical breadth and scientific depth to serve your testing needs across multiple specialties while helping you improve quality and patient outcomes

LOWER COSTS

Services that can help you optimize financial resources, including improving value-based care measures that can boost reimbursement

INNOVATIVE SOLUTIONS

National reach, clinical expertise, technology, and advanced testing—together, we can help you do more to meet community needs

How Quest can help support your health center's priorities

Improved experiences

Everyone deserves high-quality healthcare.

But many patients face challenges that make it hard for them to get the care they need. We understand that addressing barriers to care is critical to improving health disparities.

Quest can help you:

- Assist patients who struggle to afford testing
- Meet patient needs wherever they are
- Offer home-based collection options for patients who qualify
- Introduce 1-to-1 patient coaching programs to increase compliance

Better outcomes

Diagnostics is the vital point where better health begins.

It's time that you expect more from your diagnostics partner. Our clinical breadth and scientific depth serve your testing needs across multiple specialties.

Quest can help you:

- Meet quality reporting requirements
- Achieve key quality measures
- Manage prescribed controlled substances
- Identify potential drug misuse
- Address infectious disease in target populations with guideline-based opt-out testing
- Integrate annual screenings to catch conditions early

Lower costs

Having to make tradeoffs when it comes to health is wrong.

We know multiple factors complicate your ability to deliver high-quality care while keeping costs in line so that your health center can continue growing.

Quest can help you:

- Optimize test utilization
- Emphasize preventive care through gap-in-care programs
- Simplify lab-related tasks
- Reduce inefficiencies and duplicative efforts

Innovative solutions

Our goal is to build healthier futures, together.

Our laboratory services, algorithms, analytics, technology, clinical expertise, and dedicated service teams provide the right resources to support your medical decision-making and operational priorities.

Quest can help you:

- Serve broad testing needs
- Decide the most efficient path to patient health
- Leverage advanced diagnostics
- Care for patients with complex needs
- Succeed in value-based contracts
