

Focused solutions for the **Healthcare Environment**

At Global, we understand the need for comfortable, flexible and engaging healing environments, and the importance our solutions play in them.

Contract ID: PP-FA-2025

A trusted partner

Since 1985, Global has been a primary source for purpose-built healthcare products and services that support wellness and raise the bar for quality, long-term value and durability for medical clinics, acute care and long-term care facilities.

You may wonder what sets us apart from other healthcare furniture manufacturers... the answer is: we care. We are listening to what people in the healthcare industry have to say and we are responding to their needs.

on the Purchase Order

Creating spaces that support caregivers, patients and their families.

As a trusted partner, Global delivers significant value:

- A leader in purpose-built healthcare products and services
- Access to customizable contracts, designed specifically to your requirements
- Innovative + forward-thinking healthcare product portfolio
- North American made products, with international distribution
- Competitive savings solutions for healthcare environments
- Products that facilitate exceptional patient care

WAITING + REGISTRATIONS

The healthcare experience starts at the registration and waiting area. Welcome visitors into a safe and comfortable environment while reducing stress and building trust.

PATIENT CARE

Adaptable and durable solutions compliment any patient care interior. Designed for infection control and prevention, and to comfortability support a variety of patient and guest needs.

CAFÉ + DINING

Cleanable, durable and inclusive – just a few of the attributes that add value to our solutions for break rooms and shared dining spaces alike.

NURSING + ADMINISTRATION

Designing for employee's well-being includes supportive solutions that promote productivity and comfortability, adapting to the ever-changing needs of nurses, doctors and administrators.

CONSULTATION + MEETING

Important discussions require solutions that support the conversation at hand. Ergonomically designed with optional media and power units to complement the way the healthcare dynamic changes throughout the day.

FILING, STORAGE + LOCKERS

A safe zone for personal belongings, lockers create a barrier for what's coming in and out of the healthcare environment as well as enables staff to clean and sanitize more effectively.
