CAHs & hospital
systems**

**Fully managed
implementation
and onboarding**

**Affordable,
predictable
subscription
pricing**

**Connects
providers, records
& experts in one
place**

The **easiest** peer review platform for healthcare teams

Medplace is a service and technology solution that streamlines peer and case reviews — connecting your quality team to 700+ top practicing specialists for fast, unbiased, actionable feedback.

Get 2-3 expert matches in 24 hours and completed reviews in just 6 days.

From chaotic, manual processes to an efficient, flexible, and compliant workflow designed for today's healthcare teams.

Streamlining peer review

Medplace combines human-centered design with feedback from healthcare leaders to remove bias and cut administrative burden across every review.

Digital forms — clean, guided review forms replace outdated PDFs, with no training required

Automated workflows — chart pulling, reviewer assignment, and in-app reminders keep reviews on track

Flexible cadences — run quarterly, biannual, or annual review cycles by department

Independent expert review — every case is reviewed by a practicing, specialty-matched physician from Medplace's expert network

Benefits

Easy-to-use review dashboard

Manage provider rosters, cadences, and forms from one HIPAA-compliant dashboard — and track every review's status in real time.

Seamless record handling

Simple, secure case submission — upload records digitally through a secure platform and track every review's status from submission to final report.

Top practicing experts

Tap a curated network of vetted specialists across every specialty — who limit engagements to avoid the perception of career experts.

Drive early resolution

Get unbiased, detailed reviews that go beyond standard-of-care — covering documentation and communication — to resolve claims faster and strengthen patient safety.

Monitoring and Reporting

The Medplace Peer Review Platform offers a built-in reporting module that lets quality leaders analyze, visualize, and interpret review data in real time — supporting timely decision-making and strategic planning across your patient-safety program.

Medplace is a service and technology solution provider for FQHCs, CAHs, hospitals, and physician groups — streamlining peer and case reviews. Built for healthcare quality teams, Medplace delivers 6-day turnaround and access to top practicing specialists, helping leaders do more with the teams they already have.
